## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimer filed on February 28, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,985,588 has been reviewed and is accepted. The terminal disclaimer has been recorded.

## **REASONS FOR ALLOWANCE**

2. Claims 43-83 are allowed.
3. The following is an Examiner's statement of reason for allowance:

The above mentioned claims are allowable over prior arts because the Cited Prior Art (CPA) of record fails to teach or render obvious the claimed limitations as recited in the independent claims 43, 62, and 74, and subsequent dependent claims.
4. The Terminal Disclaimer filed on February 28, 2006 obviates the Double-Patenting rejection made with respect to US 6,985,588.
5. The CPA does not teach or suggest a system or device that combines a shape parameter and a location identity attribute to form an encryption key which is used to encrypt digital information, and whereby, decrypting the digital information must be done with a decryption key which is formed by using the current location and the shape parameter.

Art Unit: 2131
